

We laugh...
...and play

and jump...
...and run

in every kind
of weather.

Then when we're tired we both
flop down and snuggle up together.

My Best Friend

BY LUCY BARNARD

A story of a little girl and her best friend, her dog! She loves to do everything with her that everyone would want to do with their best friend. A funny and rhythmic journey of activities they do together; walks in the park, dress-up, snuggles on the sofa and even discussing her secrets and problems when she's sad, that only her dog would understand and listen to.

This book is for any child who has their own best friend. Whether it be their pet, a family member, a school friend or imaginary, this book beautifully illustrates all the fun things a child would want to do and share with the most important person in their life.
