

Adoptablez

The **Adoptablez** are a charming collection of lovable pet characters who meet at the *Adoptablez* Rehoming Centre, each in search of a place to call home. Every character is available to adopt as a plush toy, accompanied by an illustrated board book that shares their unique backstory and the journey that led them to need a new, loving family.

The books are also available as standalone titles and collectible sets. At the heart of the *Adoptablez* series are meaningful themes of responsible pet ownership, animal welfare, kindness, and friendship.

Collaborate

- Collectable board book series
- Accompanying plush toy
- Activity book
